Applicant: Herzel

Examiner:

Serial No: 09/

Art Unit:

For: VOLTAGE-CONTROLLED OSCILLATOR WITH LC RESONANT
CIRCUIT

Filed: 3 December 2001

Date: 3 December 2001

Commissioner of Patents and Trademarks
Washington, D.C. 20231

INFORMATION DISCLOSURE STATEMENT

Under 37 CFR 1.97

This Information Disclosure Statement is filed on the filing date of the national stage entry of a PCT application, so it is timely filed without payment of a fee. 37 CFR §1.97(b).

The filing of this Information Disclosure Statement shall not be construed as a representation that a search has been made (37 CFR §1.56(g)), an admission that the information cited is, or is considered to be, material to patentability or that no other material information exists.

The filing of this Information Disclosure Statement shall not be construed as an admission against interest in any manner. Notice of January 9, 1992, 1135 O.G. 13, at 25.

This Information Disclosure Statement is made to comply with the duty of candor imposed on all individuals associated with the filing or prosecution of this application, as defined by 37 CFR §1.56(c).

Three (3) U.S. patents and five (5) foreign patent documents are listed on the attached one (1) sheet of Form PTO/SB/08A which is made a part hereof. A copy of

each is enclosed. Also enclosed in the filing papers, but not listed on the form, is a copy of an International Preliminary Search Report from the European Patent Office on PCT application PCT/DE00/01385, from which this US application is a national stage entry. One of the German applications, No. 100 21 273.5, dated 26 April 2000, which underlies the PCT application, has been examined and the German Patent Office search report, dated 20 February 2001, is enclosed, although not cited on the Form PTO/SB/08A.

References AB and BA are cited in the PCT search report as "X" references, although the amendments made in Chapter II resulted in a clean international preliminary examination.

References AA, AC, BC and BD are cited in the German Patent Office search report.

Each of the cited documents except BC through BE are in English. None of these is known to exist in an English language translation.

The foregoing Information Disclosure Statement is based upon the information known to the inventor or contained in the undersigned attorney's file as of the filing date of this statement and is inclusive of the best information known to each of the undersigned at that date. Prompt consideration of the Information Disclosure Statement and the references by the Examiner is earnestly requested.

Respectfully submitted,

Stephen L. Grant
